

OFFICE SHREDDER

5141

This high-performance office shredder is top of the class and offers innovative technology. It shreds up to 55 sheets simultaneously at a high shred speed. There is a choice of five shred sizes to accommodate the various security levels.

EBA 5141 S | C | CC | CCC

SPS – (Safety Protection System) package: patented, electronically controlled, transparent safety flap in the feed opening as additional safety element; EASY-SWITCH – intelligent control element indicating the operational status of the shredder with varying colour codes and back-lit symbols; automatic reverse and power cut-off (avoids paper jams); automatic stop if the shred bin is full; electronic door protection via a magnetic proximity switch; double motor protection against overheating; ZERO ENERGY CONSUMPTION: Complete, automatic disconnection from power supply after 30 minutes. Automatic start / stop via a photo cell in the feed opening. ECC – Electronic Capacity Control: patented indication of the used sheet capacity during shredding process. Automatic oil injection on the cutting shafts during shredding operation for consistently high shred performance. Large insertion width of 405 mm for convenient shredding of large formats. High-quality cutting shafts from special hardened steel. Models 5141 S and C have paper clip proof cutting heads, which are also suitable for safe shredding of CDs and DVDs. Lifetime guarantee on the cutting shafts (except EBA 5141 CC and 5141 CCC). Powerful 1600 Watt single phase motor for continuous operation. Sturdy chain drive and fully closed gear box housing. High-quality wooden cabinet with a cabinet volume of 210 litres. Movable on castors. Environmentally-friendly shred bin with 165 litres volume for the shreds (no disposable shred bags required). Attractive colour combination silver / dark grey. Quality “Made in Germany”.

Robust and durable: High-quality paper clip proof cutting shafts from special hardened steel. Lifetime guarantee on the cutting shafts under conditions of fair wear and tear (except EBA 5141 CC and 5141 CCC).

EASY-SWITCH: intelligent multifunction switch element with integrated optical signals for the operational status of the shredder.

ECC Electronic Capacity Control – LEDs indicate the used sheet capacity during the shredding process to avoid paper jams.

The automatic oil injection system lubricates the cutting shafts when shredding and guarantees a consistently high shred performance.
